Overview

At least 15% of counties in the U. have effectively halted new utility-scale wind, solar, or both, USA TODAY found. has set a target to reach 100% clean energy by 2035, a goal that depends on building large-scale solar and wind power. will not approve wind or solar power projects. Trump has tightened federal permitting for renewables with Interior Secretary Doug Burgum now having the final say. Renewable companies fear that projects will no longer receive permits that were once normal course. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies. However, some states still make installing solar panels functionally impossible by creating. The Trump Administration is waging an unprecedented, cross-agency campaign to restrict clean energy deployment.
