

# Is the photovoltaic panel renovation coating good

 **TAX FREE**    

## ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

The image shows a tall, grey Energy Storage System (ESS) cabinet. It features two vertical green stripes running down the center. In the middle, there is a blue hexagonal shape with a black lightning bolt symbol inside. At the top right, the letters 'ESS' are printed in green. At the bottom, there are two yellow triangular warning symbols with lightning bolts inside, indicating high voltage or electrical hazard.

## Overview

---

This coating can protect solar panels from various weather conditions, dust, UV radiation and decreases the maintenance cost by providing self-cleaning properties. It can also reduce light reflection and hence improve the energy absorption capacity of the solar panel. Therefore, there has been a recent surge in the development of multi-functional surface coatings for solar panels, aiming to impart properties like self-cleaning, anti-reflection, anti-fogging, anti-icing, self-stratifying, and self-healing. This review provides an overview of the current state of. The coating on solar panels plays a huge role in how well they perform.
