

# JA Solar Household Energy Storage System

Warranty  
**10 years**

LiFePO<sub>4</sub>

Intelligent BMS

Wide Temp:  
-20°C to 55°C

## Overview

---

Energy storage systems (ESS) from JA Solar utilize lithium-ion battery technology, renowned for its high energy density and longevity, effectively addressing various energy needs while minimizing space requirements. Rising energy prices are driving up residential electricity costs. The intermittency of residential PV generation results in curtailed output and underutilized energy. Dynamic charge-discharge. Our diverse product solutions are already being used in a large number of centralised PV power plants, agrivoltaics and floating PV power plants. With our broad product portfolio, we offer sustainable. Founded in 2007, we are a trusted innovator in renewable energy solutions, dedicated to manufacturing premium monocrystalline, bifacial, and all-black solar panels, complemented by integrated energy storage systems, including high-efficiency inverters and durable battery units. Enter JA Solar household energy storage - the Bruce Wayne to your solar panels' Batman.
