

Kuala Lumpur clean electricity

Overview

KUALA LUMPUR: Malaysia remains steadfast in its clean energy transition, with the National Energy Transition Roadmap (NETR) targeting 70 per cent of electricity generation capacity from renewable energy sources by 2050, said Prime Minister Datuk Seri Anwar Ibrahim when tabling the. KUALA LUMPUR: Malaysia remains steadfast in its clean energy transition, with the National Energy Transition Roadmap (NETR) targeting 70 per cent of electricity generation capacity from renewable energy sources by 2050, said Prime Minister Datuk Seri Anwar Ibrahim when tabling the. In recent years, the Malaysian Government such as the Ministry of Natural Resources, Environment and Climate Change, the Energy Commission, and the Sustainable Energy Development Authority, has released policies and frameworks to guide the growth of cleantech and renewable energy (RE) activities. Energy is undeniably one of the most significant driving forces to prepare Kuala Lumpur in coping with an electricity demand for a population of 1.7 million, and an average increment rate of 1. Hence, renewable energy uptake and innovation in the implementation of energy-efficient. Malaysia remains steadfast in its clean energy transition, with the National Energy Transition Roadmap (NETR) targeting 70 per cent of electricity generation capacity from renewable energy sources by 2050.
