

# Laos lithium power energy storage manufacturer

## Overview

---

VinES Energy Solutions, a member of Vingroup, specializes in researching, developing, and manufacturing advanced lithium ion batteries for mobility and energy storage applications. But here's the kicker - this landlocked nation's aiming to become the "Battery of Asia" through hydropower, yet faces a \$200 million annual energy deficit during dry seasons [3]. That's where lithium battery manufacturers step in as game-changers. Laos currently generates 80% of its electricity. Lithium-ion batteries dominate Laos' energy storage market due to their: In 2022, a Laos-based manufacturer deployed a 500 kWh lithium battery system paired with solar panels across 12 villages. From solar farms needing stable energy buffers to factories requiring backup power during outages, these solutions are reshaping Laos' energy. A project to build two massive battery storage systems that can capture electricity generated from renewable energy sources is now open to bidders. The battery energy storage systems (BESS) will be located in Marsa and Delimara, on Enemalta grounds in both localities.

-  **All In One**  
Integrating battery packs
-  **Intelligent Integration**  
Integrated photovoltaic storage cabinet
-  **High-capacity**  
50-500kWh
-  **Rated AC Power**  
50-100kW
-  **Degree of Protection**  
IP54
-  **Altitude**  
3000m(>3000m derating)
-  **Operating Temperature Range**  
-20-60°C (Derating above 50°C)

## Laos' Energy Revolution: How Local Lithium Battery Manufacturers Are

Local manufacturers like Huijue Group are developing climate-resilient solutions. Their new 5kWh home storage system (priced at \$1,200) can power a typical Lao household for 18 hours - perfect for monsoon season ...
