

Latest Amsterdam PV Energy Storage Policy

**Low Voltage
Lithium Battery**

6000+ Cycle Life

Overview

When will a new battery storage scheme open in the Netherlands?

The scheme is scheduled to open on Jan. 1, 2025, and end in 2034. The funding is part of a €416 million subsidy program that was announced last year. The Dutch government has earmarked EUR100 million (\$106.7 million) of subsidies for the deployment of battery storage alongside PV projects. At the same time: Together, these factors create one clear trend: Storing. The phasing out of net-metering for solar installations is incentivizing a growing number of citizens to install residential battery storage systems in the Netherlands. Minister for climate and energy policy and D66 party leader Rob Jetten announced.
