

# Liberia Mobile Power Station Container Power Generation

## Overview

---

The utility-scale project will feature 70 MWp of solar PV plants and 20 MW/60 MWh of battery energy storage systems (BESS) in Buchanan and Yekepa. Image: Liberia Electricity Corporation. The project is an. Compression of air creates heat; the air is warmer after compression. If the heat generated during compression can be stored and used during expansion, then the efficiency of the storage improves. Will Liberia get a 20 MW power supply in 2020?

In addition, the government signed a Power Purchase Agreement with a solar energy company to provide the country  $\geq 20$  MW of electricity in 2020. Despite these efforts, much work remains to be done to improve access to reliable and affordable energy in. We innovate with solar photovoltaic plant design, engineering, supply and construction services, contributing to the diversification of the energy matrix in our. We provide operation and maintenance services (O&M) for solar photovoltaic plants. Efforts to expand energy access also hinge on vital factors such as international partnerships, public-private collaborations and innovative off-grid and mini-grid solutions over the country  $\geq 20$  MW. The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations.
