

# Lithium-ion battery technology greece

## Overview

---

An additional €20m is being invested in the production of lithium-ion batteries, with the installation of three highly automated assembly lines for lithium modules and complete lithium battery systems, as well as one assembly line for prototyping and R&D purposes. One of Europe's most advanced industrial battery facilities and the largest motive power battery plant in the world. It serves as a production hub and a key R&D site, accelerating Sunlight's global leadership in energy storage. Fully automated lithium-ion and lead-acid lines built for. Greece's leading battery energy storage business, Sunlight, has agreed to acquire 51% of Lehmann Marine GmbH, a German company that supplies the marine industry with energy storage.
