

# Long-term payment method for inverter cabinet

## Overview

---

Pay for your solar system upfront and own it immediately. Typically provides the highest long-term savings and fastest payback period. Finance your solar system with. Domestic clean energy manufacturing capacity is booming due to the tax incentive for manufacturing solar, wind, or battery components, inverters, and critical minerals. Manufacturers of these products are entitled to receive advanced manufacturing production tax credits (AMPTC), also known as §45X. Fortunately, there are options for financing solar panels that make it possible to benefit from solar energy savings without paying the hefty upfront cost. Find the best option for your budget and maximize your solar savings. Our most popular option that our customers take advantage of no interest for purchases over \$99 if paid within 6 months. There are multiple ways to pay, choose.
