

Longi Anti-dust Photovoltaic Panel Size

Overview

Chinese solar PV solutions giant Longi has unveiled its Hi-MO X10 anti-dust solar panel at the Jinan International Solar Energy Utilization Conference. 0 cell technology, a uniform half-cell (6×24) design, and measures 2,382×1,134×30 mm. Experience the future of solar energy with Guardian Anti-Dust Solar Panels. Perfect for both residential and commercial applications, these panels feature a revolutionary anti-dust short end frame design that ensures dust naturally slides off, keeping your panels clean and efficient. Featuring Longi has released a back-contact solar module with 24.8% efficiency, featuring a power output of up to 670 W and a temperature coefficient of -0.0 cells, and a 30-year warranty, ideal for industrial/commercial steel roofs. Efficiency The LONGi LR7-72HVDF 640-665M is a high-performance bifacial solar module designed for industrial and commercial. The Longi Hi-MO6 LR5-72HTH (Anti-Dust Accumulation) 560W~585W solar panel is designed for large commercial and industrial installations.

Longi Anti-dust Photovoltaic Panel Size

Antidust modules from LONGi - SolarAcademy

It walks through dust accumulation and its impact on PV performance. It also looks at a few key dust accumulation scenarios and details how LONGi's design combats them.
