

# Low-pressure energy storage cabinet for drilling sites

## Overview

---

The ESS-C-JG232-L cabinet storage system is a powerful energy solution designed for commercial and industrial applications. With capabilities like peak-load shifting, off-peak energy usage, and reliable emergency backup, it optimizes energy efficiency and reduces costs. With reinforced hooks and hanger rods, custom hanging systems, and heavy-duty construction, our cabinets prevent damage, promote organization, and help you stay OSHA-compliant. CORROSIVE ENVIRONMENTS CAN DESTROY STEEL. Our Battery Energy Storage System (BESS) will efficiently monitor load sharing between generators and. Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO4 technology with modular design and robust safety architecture. AZE's All-in-One Industrial ESS is a versatile and compact energy storage system. One energy storage cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system, which can be installed both indoors and outdoors.

## Low-pressure energy storage cabinet for drilling sites

---

### **BATTERY ENERGY STORAGE SYSTEM**

BESS automatically monitors load sharing between multiple generators and shuts down any unnecessary generators, supplying 1.5mw of power to the drilling operation.
