

Main domestic companies engaged in microgrids

Overview

Various major players dominating the microgrid companies include Schneider Electric (France), Siemens (Germany), Eaton (Ireland), General Electric (US), ABB (Switzerland), Hitachi Energy Ltd. (Switzerland), Honeywell International Inc. (US), Homer Energy (US), S&C Electric Company. Respire Energy is developing the next-generation metal-air battery packs for behind-the-meter, microgrid, and utility-scale energy storage. Using abundant materials, our solution is safer and lower-cost than existing lithium-ion and lead-acid batteries, accelerating the clean energy transition. A microgrid is a small-scale, localized energy system that can operate independently or together with the traditional utility grid. It typically combines renewable energy sources (like solar panels), energy storage systems (like lithium batteries), smart inverters, and advanced control software. We have selected 10 standout innovators from 770+ new microgrid technology solutions, advancing the industry with interactive energy grids, predictive control systems, modular microgrid installations, and more. 6 billion in 2024 and is projected to reach USD 87.
