

Maldives Energy Storage Container

Overview

The Government of Maldives has awarded a contract to a Chinese consortium to install 38 megawatts (MW) of battery energy storage systems (BESS) across 18 islands, in a bid to enhance renewable energy capacity and reduce dependence on fossil fuels. The Maldives is adopting advanced low-carbon technologies to reduce emissions and diesel imports with the help of the Japan Fund for the Joint Crediting Mechanism. However, this achievement has come at a cost.
