

# Manufacturer of 100-foot photovoltaic energy storage containers for Port of Spain

## Overview

---

solarcont has developed a mobile solar container that stores and unrolls foldable photovoltaic panels for portable green energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through the unique combination of innovative and advanced container. As a leading global new energy enterprise, Risen Energy leads the global energy revolution with solar cells, solar modules, and photovoltaic power stations, etc. We have a large stock in our warehouses in Spain and Europe. We are committed to promoting energy transformation and sustainable development and providing innovative energy storage solutions. LZY Energy photovoltaic water.
