

# Mauritania large-scale energy storage project construction

## Overview

---

NOUAKCHOTT, Ma- The World Bank Group today approved the Mauritania Development of Energy Resources and Mineral Sector Support Project —known as the DREAM Project —to boost green hydrogen development, expand energy storage, and support critical reforms in the mining.

NOUAKCHOTT, Ma- The World Bank Group today approved the Mauritania Development of Energy Resources and Mineral Sector Support Project —known as the DREAM Project —to boost green hydrogen development, expand energy storage, and support critical reforms in the mining.

NOUAKCHOTT, Ma- The World Bank Group today approved the Mauritania Development of Energy Resources and Mineral Sector Support Project —known as the DREAM Project —to boost green hydrogen development, expand energy storage, and support critical reforms in the mining sector.

“The. Part of the initiative is the construction of Mauritania's first utility-scale battery energy storage system. Mauritania has taken a bold step toward becoming a regional leader in clean energy and sustainable mining following the World Bank Group's approval of the Development of Energy Resources. The World Bank approved the “DREAM” project, a major initiative aimed at supporting the development of energy resources and the mineral sector in Mauritania. This initiative focuses on advancing green hydrogen development, expanding energy storage capacity, and. Mauritania is stepping into a brighter future with its recent 0 million Power Purchase Agreement (PPA) with Ewa Green Energy. This ambitious venture will pave the way for a cutting-edge hybrid power plant that promises to revolutionize the country's energy landscape. Industry experts suggest that by scaling oncontract (PSC) for the Bir Allah offshore gas field.
