

Montenegro invests in grid-side energy storage project

Overview

The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55. State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage. EPCG, a utility and distribution network operator (DNO) in the Southeast European country of Montenegro, is looking to add 300MW of BESS to its grid. Each battery energy storage systems (BESS) will have a power output of 30 MW and a storage capacity of 120 MWh, designed. This scenario sets the stage for a groundbreaking initiative by the state-owned utility, Elektroprivreda Crne Gore (EPCG), which is spearheading the deployment of advanced battery energy storage systems (BESS).
