

Myanmar Hybrid Energy Storage Project

Overview

A 460 kWp ground-mounted solar array, integrated with a 300 kW hybrid inverter system and 600 kWh of energy storage, has been successfully commissioned at a tourist resort and hotel site in Yangon. This project showcases Livoltek's capability to deliver scalable and efficient clean energy solutions. Myanmar saw the completion of a 50 kW hybrid solar project by Solis with Longlast batteries, boosting commercial backup and energy resilience. The Solis S6-EH3P50K-H system has delivered <10 ms grid shift, diesel integration, and dynamic energy cost management in Myanmar. He also serves as a member of the State Administration Council, Deputy Prime Minister, and Union Minister at the Prime.
