

Namibia installs solar energy storage

Overview

State-owned utility Namibia Power Corporation (NamPower) has issued a tender for six utility-scale solar PV IPPs and an EPC procurement notice for a large-scale battery energy storage system as Windhoek advances its plans to significantly increase on-grid renewable energy. State-owned utility Namibia Power Corporation (NamPower) has issued a tender for six utility-scale solar PV IPPs and an EPC procurement notice for a large-scale battery energy storage system as Windhoek advances its plans to significantly increase on-grid renewable energy. The Namibia Power Corporation (NamPower) is seeking contractors willing to install 120 MW of solar and 45 MW of battery storage capacity at two locations in its home country. License: Creative Commons, Attribution 2. The national power. In Namibia, one of the largest electricity storage systems in southern Africa is currently being built – financed with a grant from KfW. Namibia has great potential for solar and wind energy, but so far it has not been able to store enough electricity.
