

# **Namibia power station energy storage equipment transformation plan**

## Overview

---

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage system (BESS) in the country and the Southern African region. With a growing share of RE the need for measures to maintain and improve energy supply stability is also growing. A battery storage system such as the KfW. A landmark 45 MW / 90 MWh battery project in Namibia begins procurement with World Bank backing. Develop transmission and distribution infrastructure necessary to enable wheeling to load centres and cro 2007) and regulations. tation in the Erongo Region. The BESS project is funded through a bilateral cooperation agreement between the German federal government n hydrogen from wave energy. Its Renewable Energy Policy aims.

## Namibia power station energy storage equipment transformation project

### Namibia energy storage project bidding

One of the most important inputs for economic growth is an abundance of reliable, affordable energy and Namibia is increasingly coming under pressure to deliver a power supply that
