

Niger s first batch of solar container communication station wind and solar complementary construction projects

Overview

Niger is taking significant strides to address its energy challenges, as new solar projects begin to transform the landscapes of Niamey and Zinder. These initiatives aim to reduce the country's dependence on electricity imports from Nigeria, marking a pivotal shift toward. Niamey, Niger, J- IFC and the Government of Niger today announced a partnership under the World Bank Group's Scaling Solar program to develop up to 50 megawatts of grid. This project, funded by the World Bank through the International Development Association (IDA). RANA is a flagship project of the Desert to Power Initiative in the country, the priorities of which were set out in the national roadmap approved in 2020. It is consistent with the Bank's CSP 2018-2022 and sector policies detailed above, as well as with Niger's national priorities. A signature ceremony was held yesterday in Niamey attended by Excellency Ibrahim.
