

Ntpc floating solar power

Overview

NTPC Ramagundam Floating Solar Power Plant is a floating photovoltaic power station in Ramagundam, India. The project is spread over 600 acres of reservoir. 36 million Ton CO₂e during the life of the project. With the focus shifting towards cleaner sources of power. The 100MW Ramagundam floating solar PV power project is being developed on the reservoir of NTPC Ramagundam Thermal Power Station in Telangana. NTPC is also planning to set up a hydrogen-based micro-grid system on a pilot basis at Simhadri.
