

Off-grid photovoltaic containerized type used at Guyana Airport

Overview

Part of the Global Light Emitting Diode (LED) Initiative, the project is designed to improve energy efficiency and lower greenhouse gas emissions at the facility. Guyana has invited bids for a solar power project to upgrade the Cheddi Jagan International Airport (CJIA). With the market capitalization of Rs. 22 crore. In Guyana, solar energy is used for several purposes, including drying agricultural produce, irrigation, ICT, and to improve electricity access in rural areas. Under the Hinterland Electrification Programme, in excess of 19,000 solar PV systems had been installed in nearly 200 communities by 2018. Oriana has secured a 3 MW airport solar mandate through a Guyana agency order. 5 Million Dollars at Guyana's International Airport What's the News?

Oriana Power Ltd has secured an international Letter of Award (LOA) from the Guyana Energy Agency for the Design, Supply, Installation & Commissioning of. Diversifying GPL's energy source with solar farms Guyana Power and Light Inc. The GUY SOL initiative, funded by the Guyana/Norway partnership with an estimated.
