

Off-grid solar-powered container used at drilling sites 120 feet

Overview

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. Comprising solar panels, batteries, inverters, and monitoring systems, these containers offer a self-sustaining power solution. Each container is equipped with a photovoltaic array, a battery bank, and a generator — all custom-sized to meet the specific needs of the customer. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Off-grid solar-powered container used at drilling sites 120 feet

48V 100Ah

Mobile Solar Power Containers: Off-Grid Energy Anywhere

Designed for rapid deployment and all-terrain applications, this self-contained solar system delivers reliable off-grid power to areas where conventional infrastructure is limited, ...
