Overview

The RFP should be open for 4-6 weeks to receive competitive bids. Issuing a RFP requires a longer procurement process, but allows property owners to specify the goals and parameters of the project and makes it easier to compare quotes. Procuring a solar electric system is a process similar to purchasing a new HVAC system, roof, or comparable property investment. Once selected, the. The three projects are estimated to purchase components with a total capacity of 2500MWp, string inverters with a total capacity of 3GW, photovoltaic fixed brackets with a total capacity of 2.5g W and a weight of about 100,000 tons. On October 27, the Three Gorges Group issued a tender announcement. red by many public agencies (federal,state,local). Visit the site to conduct a s determining the final content of any. Let's face it – when most people think about solar projects, they're dreaming about sleek panels and clean energy ROI, not the unglamorous metal holding everything together.
