

# Photovoltaic energy storage caught fire

48V 100Ah

## Overview

---

When fire broke out at the world's largest battery energy storage facility in January 2025, its thick smoke blanketed surrounding wetlands, farms and nearby communities on the central California coast. Zendure has issued a statement following an investigation into the cause of a fire in Neuenhaus, Lower Saxony. Battery manufacturer Zendure has investigated the cause of a fire in one of its battery energy storage systems (BESS) and told pv. Battery safety has come a long way since the construction of the 300 MW first phase of Vistra Energy's Moss Landing Energy Storage Facility in California, which caught fire on January 16. The vast majority of today's large-scale battery energy storage systems does not have much in common with the. A report released Friday by a clean-energy trade group spells out best practices for safe use of large-scale battery energy storage systems following a major fire at a battery facility early this year. The search for the cause continues.
