### How to install a water proofing solar panel?

Step 1: High Rise Panel Stand  
Step 2: EPDM Tape  
Step 3: Drainpipe  
Conclusion  
The high-rise panel stand, is the primary factor to keep solar panels waterproofed as the stand with a minimum height of 7 to 8 feet allows the solar panel to not to touch the ground and it can get dry as the wind passes below the solar panels. Generally, the stand is set aligned with the wall of the roof that can rise up to 10 feet. This stand wil See more on loomsolar frankogroup.pl[PDF]

### How to deal with waterproofing installing photovoltaic panels

How to deal with waterproofing installing photovoltaic panels when h a step-by-step process to completely waterproof the solar panel. Step 1: High Rise Panel Stand  
The high-rise panel stand, is ...
