Photovoltaic panels bring value

Overview

Solar panels can increase a home's value by up to 10% — or $1,000 for every $10,000 of property value. And you'll only see that increase in value if you own the solar panels or shingles. It's been proven that solar panels can help you save on your electricity bills – but can they add value to your home, too?

Our experts found that homes with solar panels sold for about 6. With this in mind, our team explored the best solar. Your home could be worth more with solar panels, but how much more depends on location and if you own the panels.
