

# Piece-rate wages for photovoltaic brackets

Solar

## Overview

---

Percentile wage estimates for Solar Photovoltaic Installers: Industries with the highest published employment and wages for Solar Photovoltaic Installers are provided. 2 to the California Labor Code, which applies “for employees who are compensated on a piece-rate basis for any work performed during a pay period. ” In general terms, Labor Code section 226. Payroll teams supporting solar jobs must manage evolving labor classifications, mixed scopes of work, and heightened audit attention while still. Piece rate pay, where employees earn compensation based on their output, is shown to enhance productivity and increase earnings: □ A study by the US National Bureau of Economic Research found that workers under piece rate systems earned, on average, 14% more than their counterparts on hourly wages. In 2025, this payment system is widely used in industries like manufacturing, agriculture, and construction, where output is easily measurable. Under the federal Fair Labor Standards Act (FLSA), employers must pay non-exempt employees at least the minimum wage for each hour worked and overtime pay at a rate of one and a half times the employees' regular rate of pay for all hours worked in excess of 40 in a workweek (some states require. This guidance is intended to supplement and supersede the guidance issued on Novem. For installations of 1 Megawatt or greater ground-mounted Solar Photovoltaic Systems and Energy Storage Systems, the wage rates listed in this guidance shall be the presumptive rates enforced by the.
