

Port Moresby Civilian solar System

Overview

In a new paper, we explore why PNG's grid has struggled to expand, what role decentralised solar could play and how other countries have overcome similar challenges. This article explores practical strategies for implementing solar energy systems while addressing unique regional challenges – think of it as a roadmap for turning. Decentralized solar systems, whether individual home kits or small-scale mini-grids, offer a scalable, cost-effective solution to PNG's electrification challenge. Solar technology is getting cheaper and PNG has abundant sunshine. What is needed is the institutional, financial and technical. Cetelnet is a leading provider of renewable energy solutions in Port Moresby, offering expert design, installation, and maintenance of solar and hybrid energy systems for homes, businesses, and institutions. Since 2013, we have implemented numerous projects, starting with our first solar system installation in Palmalmal, East New Britain, PNG.
