

Practical solar container system

Overview

These turnkey solutions integrate solar panels, inverters, batteries, charge controllers, and monitoring systems into a single transportable unit that can be deployed rapidly to provide electricity in diverse locations. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. Such innovative arrangements provide a sustainable, budget-friendly way to areas that lack access to the conventional power grids. Whether you're managing a construction site, a mining operation, or an emergency. SolaraBox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily.

Practical solar container system

Instant Off-Grid(TM) Shipping Containers with Solar and Batteries and AC+

RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + ...
