Price of a 100kW Photovoltaic Energy Storage Unit for Australian Airports

Overview

A 100kW solar system in Australia costs $86,200 – $95,000, produces around 380 – 440 kWh per day, and typically suits commercial and industrial sites aiming to save $28,000 – $32,000 per year, depending on usage and feed-in tariffs. 100kW solar systems are among the most popular commercial solar system sizes in Australia, as this size is the cutoff point for up-front incentives through the federal government. The 100kW commercial solar system generates an average of 400kWh. How much does a 100kW 150kW 200kW solar system cost?

 PVMars lists the costs of 100kW, 150kW, and 200kW solar plants here (Gel battery design). If you want the price of a lithium battery design, please click on the product page of the corresponding model to find out. Below are 10kW-500kW wind power. We have access to the most advanced solar technology in the business, offering high efficiency 100kW solar systems to warehouses, industrial buildings, office complexes and retail stores across the country. By going solar your business may not only.
