

Price of off-grid solar power station

Overview

Switching to an off-grid solar power system lets you generate your own electricity without being tied to an electric grid—and without energy bills and power outages. This independence comes at a higher cost than a traditional grid-tied system. Off-grid solar systems cost \$. Off-grid solar systems cost an average of \$45,000–\$65,000. Battery storage represents the largest expense in an off-grid system, often accounting for 30-40% of the total system cost. On average, off-grid solar panels cost about \$55,000 but can range from \$20,000 for smaller, older panels to \$100,000 and more for bigger, more complicated systems.
