

# Price of solar panels on rural roofs in Togo

## Overview

---

Launched on Ap, the Dapaong solar plant (25 MWp, 36,000 panels) will be delivered within 13 months. Funded with USD 60M by the World Bank through RESPITE, it will power 29,000 homes, stabilize the grid and avoid 33,600 tons of CO<sub>2</sub>/year. Togo's solar electrification drive is transforming rural areas, with 314 health centers now equipped with solar panels, ensuring uninterrupted electricity for medical services. The initiative, supported by the African Development Bank (AfDB) and the European Union (EU) under the PRAVOST program. Discover comprehensive insights into the statistics, market trends, and growth potential surrounding the solar panel manufacturing industry in Togo Togo receives an average of approximately 2,332 hours of sunshine annually, which is about 6 hours and 23 minutes per day. The percentage of daylight. The West African country intends to harness decentralised solar systems as part of its wider target of achieving universal electricity access by 2030 The new 62MWp solar power plant in Sokodé, Togo. Image source: AfDB Togo has launched the “Café Lumière” initiative, a solar-powered community. Geographical Location: Situated in West Africa, Togo is a narrow strip bordered by Ghana to the west, Benin to the east, Burkina Faso to the north, and the Atlantic Ocean's Gulf of Guinea to the south. Its terrain stretches from coastal plains to rolling savannahs and low northern hills. Solar. Several studies show that solar panels boost sale prices Suntec Togo SARL acts as investor and operator of Agri-PV plants in Togo and is specialized in financing and project development of small-scale and challenging renewable energy projects in emerging West African markets.
