

Qi Power Wind

Overview

☐☐ China unveils the world's largest floating wind turbine, the Qihang, marking a significant advancement in renewable energy. ☐☐ The 20 MW turbine can save approximately 27,500 tons of coal and reduce carbon emissions by 68,500 tons annually. Designed with the end-user or micro-grid.

Qi Power Wind

juwi Group acquires majority stake in Qi Power Limited

juwi and Qi Power are pleased to announce that juwi AG, one of the world's largest renewable energy companies, is acquiring a controlling stake in Brisbane based Qi Power Limited.
