

Resin tile photovoltaic panels

Overview

Integrated solar roof tiles, often referred to as solar shingles, are roofing materials embedded with photovoltaic (PV) cells that capture and convert sunlight into electricity. Royal-15 is a new generation of roof tiles that combines high-efficiency, clean power generation and high-level safety performance, and is more in line with the aesthetic needs of modern buildings. Royal series of integrated roof tiles are refined from the world's leading composite resin materials. These innovative tiles seamlessly integrate solar technology into your roof, providing clean and renewable energy while improving your home's curb appeal. Tesla Solar Roof offers a complete roof replacement with hidden solar cells, while CertainTeed Apollo Tile II blends seamlessly with existing roofs. Our custom design capabilities ensure seamless architectural integration while maintaining 15-23%.
