

Russian phase change energy storage system manufacturer

Overview

Our technology engages bio-based phase change materials, enabling us to craft highly efficient and eco-friendly Thermal Batteries. PhaseStor, with over 35 years of unwavering dedication, has been at the forefront of thermal energy Storage technologies. MKC Group of Companies is an official partner in energy storage devices built on CATL battery systems — a world leader in the production of lithium energy sources for electric transport and energy. The main product lines are ASTRA, TOPAZ, ESS. 10 joint laboratories, including 4 with institutes of the Russian. IMPULS R&D company is a Russian developer and producer of reliable uninterruptible power supplies and integrated solutions for power protection of any complexity level from 450 VA till 1 MVA, including increased protection with multi-level redundancy of power to satisfy business demands of any. Russia's vast geography and growing industrial sector require high-power energy storage solutions that can withstand extreme temperatures while delivering consistent performance. From Arctic mining operations to Moscow's expanding metro system, the demand for reliable power supply has never been. As per Market Research Future analysis, the advanced energy-storage-systems market size was estimated at 2850. 0 USD Million by 2035, exhibiting a compound annual growth.
