

Seasonal Solar Bracket

Overview

Designed to support large solar panels, it features a 15°-45° adjustable angle for optimal year-round performance and fast snow shedding. With four mounting options, it handles diverse terrains without concrete footings or heavy labor. The IR-45ASA is available in aircraft grade aluminum (IR-45ASAA) or black zinc electroplated high-strength steel (IR-45ASAB) and offers all of the same great features of our other BallastRack Systems with the ability to be set closer to the exact angle needed for maximum performance in your region. The IntegraRack IR-45ASA is an adjustable, scalable, and DIY-friendly racking system for any size solar array. These racks can be secured with innovative anchoring systems such as EarthBallast, AnchorSpike, Concrete anchors, or even concrete curb stops or low-profile water tanks – installation has. Note: This is for one single mount, Multiple mounts are needed to install an array. See if you qualify at checkout. I've seen it a hundred times: someone installs a beautiful new solar setup flat on their shed roof and is thrilled with the power they get in July. Engineered for rapid installation, each frame can be assembled in just 2 minutes, making it one.
