

Sineng smart solar storage system

Overview

Sineng Electric announced the debut of its new-generation residential solar-plus-storage solution at Intersolar Europe 2025. Engineered to redefine home energy management, the battery system integrates cutting-edge technologies to deliver superior efficiency. Sineng delivers top-notch residential solar-plus-storage solutions, featuring single-phase and three-phase hybrid inverters with high-performance batteries. These hybrid inverters, ranging from 3 to 15kW, empower homeowners to achieve energy independence, reduce electricity bills, and minimize downtime for both string and central PCS. With exceptional performance, elevated efficiency, and utmost safety, these solutions play a crucial role in ensuring grid stability, enhancing grid resilience, and facilitating peak shaving to meet energy and power conversion system. With an array of products, Sineng's leading global provider of smart energy solutions SINENG Electric stole the spotlight at Intersolar Europe 2025 with its full-scenario PV-ESS (Photovoltaic-Energy Storage System) lineup and a revolutionary residential PV-ESS solution, cementing its position as a driver of renewable energy. Leveraging technological innovation and extensive expertise, Sineng delivers a wide range of energy storage products, including hybrid inverter, battery and power conversion system. To drive sustainable development across industries, Sineng Electric debuted 50-150kW inverters paired with a 1.5MW/3MWh energy storage system.
