

# Solar Photovoltaic Apprenticeship

## Overview

---

SEIA developed this page as resource for solar employers looking to explore, develop, or participate in registered apprenticeship programs. Registered Apprenticeship Programs (RAPs) are paid jobs that prepare workers for careers while meeting the needs of businesses for a highly skilled workforce. Pre-apprenticeships are focused on preparing students for a successful experience in a Registered Apprenticeship Program (RAP). That means your hands-on training will be based on industry. To install solar electric systems in Oregon, workers must hold either a General Journey Worker Electrician's license or a Limited Renewable Energy Technician's (LRT) license. LRTs specialize in renewable energy systems (solar electric, wind turbines, micro-hydro, and fuel cells) up to 50kW. ) while learning the in-demand skills of the trade. Whether you're exploring a new career path or preparing to enter a. Recognizing this growing need, the U. Department of Labor (DOL) has officially approved national guidelines for Registered Apprenticeship programs in the solar industry, developed by the Interstate Renewable Energy Council (IREC) and the Solar Energy Industries Association (SEIA).
