

Solar Power Generation Village Secretary

Overview

The Solar Guidebook contains information, tools, and step-by-step instructions to support local governments managing solar energy development in their communities. In New York, the sun shines for everyone. Combined with declining equipment costs, New York State tax credits, and Inflation Reduction Act tax. Through the Clean Energy Program, DCAS works to expand distributed energy resources, including solar PV and energy storage installations across the City's portfolio of properties. The City has established a goal of installing 100 Megawatts (MW) of solar photovoltaic (PV) on City-owned buildings by 2025. New York leads the U. in community solar capacity, with more than 1,300 projects built as of March 2025. NY-Sun, a dynamic public-private partnership, will drive growth in the solar industry and make solar technology more affordable for all New Yorkers. He was appointed Avangrid Power President and CEO in September 2022. Jose Antonio has extensive renewables leadership experience.
