

Solar battery cabinet lithium battery pack multi-voltage switching

Overview

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on-grid and off-grid configurations for reliable energy. The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation. It works with energy storage cabinets and PV inverters to support stable power distribution and coordinated energy management. Switch off/circuit breaker (optional), three-level. The BSLBATT PowerNest LV35 hybrid solar energy system is a versatile solution tailored for diverse energy storage applications.

Solar battery cabinet lithium battery pack multi-voltage switching

LIBSESMG17UL

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface.
