

Solar module project self-funded

Overview

This guide will walk you through the essential steps to secure government grants for your solar energy project, focusing on two major programs: the Solar for All initiative and the Rural Energy for America Program (REAP). The Self-Generation Incentive Program (SGIP) is a State of California initiative that provides funding for income qualified residential customers to install solar and battery storage systems on residential property. To support customer resiliency and grid reliability, the CPUC has authorized funding of \$280 million for. Whether you're a low-income homeowner or a rural resident, there are plenty of grants and funding options in 2025 to make solar energy accessible, affordable, and efficient. Use this tool to learn whether your electricity was shut off during a Public Safety Power Shutoff (PSPS).
