

# Solar photovoltaic panel custom shape

## Overview

---

Yes, it is possible to make a solar panel in a custom shape. All our products come with possibility for size variations. Most standard small solar panels are rectangular in. In general, active solar material is manufactured into rectangular panels to achieve optimal power output with minimal material waste. All our. As a customized solar panels solution provider and high efficiency solar panel manufacturer, we work closely with our clients from the initial stage of product development, to providing technical support and optimized solar panel design options, and meeting the specific needs of each and every one. In the eyes of most people, solar panels typically appear as rectangles in shape and dark blue or black in color plus with dozens of cells laid within. However, owing to the growing adoption of solar panels, their standard appearance, dimensions as well as electrical specifications may not fit.
