

Solar power generation project construction tax rate

Overview

If construction begins in 2020, 2021, or 2022 the ITC equals 26 percent of eligible costs, and if construction begins in 2023, the ITC equals 22 percent of eligible costs. The amount of the ITC for a qualified solar facility depends on the year in which construction begins. Today it's a 6% base or 30% if you meet prevailing-wage & apprenticeship (PWA) rules (or qualify for the small-project exception), with potential +10 pts bonuses for. Effective Septem, IRS Notice 2025-42 ends the 5% safe harbor for many solar and wind projects—learn what this means for renewable energy tax credits and project timelines under sections 45Y and 48E. For electricity sold to an unrelated person and produced from the following renewable sources: wind, biomass, geothermal, solar, landfill and trash, hydropower, and marine and hydrokinetic. projects, for purposes of Section 48E tax credit eligibility.
