

Solar power generator under the sun

Overview

A solar power generator is a portable power station that uses solar panels to convert sunlight into electricity and store it in a battery. Find out how today's top models fared in our hands-on tests. These powerful power packs offer huge battery capacity that can fuel large devices and even appliances in a pinch. They're great in an emergency, but they're also essential tailgating and camping equipment. From powering homes during outages to energizing outdoor adventures, solar generators offer a versatile and eco-friendly alternative to traditional fuel-based options.
