

Solar power market share

Overview

Asia Pacific led the global market with the largest market share of 36% in 2025. 69 billion in 2023 and is projected to be worth USD 273 billion in 2024 and reach USD 436. By grid type, on-grid systems captured 89. 2% CAGR. The size of the U. is growing due to the rising demand for clean energy and declining costs, supported by government policies.

Solar power market share

U.S. Solar Power Market Size, Share & Trends Analysis, 2032

In the U.S. solar power market, the photovoltaic technology was the leading category in 2024, with a share of 92%, because of its cost-effective and simple installation.
