

Solar support fixing block

Overview

Our Weight blocks are purposefully designed to hold solar panels securely in place. They provide the necessary support and stability, especially in rooftop installations where drilling into the surface is not feasible. Discover below all our assortment of fixings, supports and. SimpleBlock-U is a rail-based clamp-to-seam solar mounting attachment designed specifically for use on standing seam metal roofs. The ROOST Support System has been designed to give you maximum versatility for all rooftop support applications such as pipe, conduit, cable trays, rooftop walkways, solar, HVAC and refrigeration. ROOST products are made with 100% recycled rubber, protect the roof membrane, dampen vibration, are UV.
