

Solution for hoisting a whole stack of photovoltaic panels

Standard 20ft containers

Standard 40ft containers

Overview

Solar panel lifters are designed to facilitate the safe and efficient installation of solar panels. Installing solar photovoltaic (PV) panels isn't just about positioning modules on rooftops. The hoisting process directly impacts safety, project timelines, and long-term system performance. With global solar installations expected to reach 350 GW annually by 2025 (IEA 2023 data), contractors need. RGC's Platform Hoists and Swing Hoists are essential tools for solar panel installations, offering safe and efficient solutions for transporting heavy and bulky materials to rooftops and elevated areas.

Solution for hoisting a whole stack of photovoltaic panels

Solar Panels

Handling solar panels is easy and efficient with UniMove solar panel lifters. Everyone can lift and tilt large solar panels, powered by vacuum technology. UniMove offers a solar panel lifter for every step ...

Geda Solarlifts - Different Modalities For Your Application Area
Unique Concept: The Solar Platform
Geda Solarlift - One Device, Several Advantages
Altogether, the GEDA Solarlift offers a broad range of advantages. The lift's acquisition costs are worth the money and the lift itself is quite space-saving. Its construction is made of separate modules that can easily be assembled in the desired ladder length. This flexibility also offers the availability to use it at places that are hard to access.
