

# Somaliland california solar energy

## Overview

---

Somaliland boasts significant, untapped solar and wind potential with ample sunshine and favorable wind conditions year-round, ideal for large-scale energy projects. We work through local management teams to create access to vital electricity service for the people who need it most. Our portfolio companies operate in Somaliland, Somalia. From homes to utility projects, we design, integrate, and maintain efficient solar systems that deliver dependable power anywhere. Solar Energy: With an average of over 300 sunny days a year, Somaliland lies in one of the most solar-rich regions on Earth. Somaliland's energy sector currently relies heavily on imported petroleum for power generation, leading to some of the highest electricity costs in Africa, ranging from \$0.
