Special Offer for High-Temperature Server Racks in Data Centers

Overview

Unlock greater flexibility, security, and high-power capacity—supporting up to 100A inputs and delivering dependable power for AI, HPC, and evolving rack densities. Our IT-grade cooling solutions lower energy costs and increase the lifespan of your IT equipment. Eaton's Tripp Lite Series portable air conditioning units are designed to maintain proper operating temperature in network closets, server rooms and other highly distributed environments. From dense server racks to edge environments and HVAC-driven energy loss, ACT delivers precision-engineered cooling solutions. Server racks are critical for data centers, providing essential support, cooling, power distribution, and security for IT systems. Regular. Optimize space, power, cooling, and more with the ZetaFrame® Cabinet System — a fully integrated solution designed for high-density deployments, AI, and HPC. We produce a variety of lines to protect IT equipment in data centers, industrial applications, small businesses, and homes.
